

BUSY TIME FOR ASSOCIATION

Charity Workers Have Much To Do In Seymour During Severe Weather.

INVESTIGATING MANY CALLS

Some From Persons Who Seldom Ask Aid.—People Should Help Association Now.

The extreme cold weather recently has caused suffering in Seymour and has resulted in many calls and much work for the charity association. The officers and members have responded nobly to the conditions and have exerted every effort to provide relief for the needy. They spent much time the past week investigating conditions and new cases and in providing for those who were in want. They found plenty of work to keep them very busy and many cases to excite their sympathy and demand their attention and aid.

Some of the calls were from families who seldom asked for assistance and never excepting when conditions are unusual and they are absolutely unable to help themselves on account of sickness or lack of work. Winter always results in putting a stop to activities in various lines of work and the extreme severity of the weather recently has resulted in many men who depend upon certain kinds of labor for their livelihood from finding any work. They are willing and anxious to work but do not find the opportunity and the winter with them as with everyone else makes the expense of living heavier. Some of these people have shown their metal and worth by refusing, even in their need, to accept aid excepting in the form of loans.

In one instance representatives of the charity association found a family of excellent people who had had considerable sickness, the father was out of work, rent was past due and the landlord was preparing to evict them Saturday. The father was given the amount of his rent as a loan. A little boy was found on the street, thinly clad and shivering from cold. A warm suit was bought for him and though he is only twelve years of age he wanted to repay those who helped him. Work was found for him and he has been paying back the money expended for him. Two little girls wearing slippers and otherwise insufficiently dressed were discovered on the street. Warm clothing was provided for them and conditions made such that they can go to school. A widow with three children furnished a case where help was needed badly. She borrowed \$1 with which to buy coal so she could get out a washing and borrowed a loaf of bread to tide her over until she could get out her work and get her money. A widow was found who had two children and who moved here recently. She was out of provisions and other necessities. Washings were found for her after she had been given aid and she is anxious for more work.

The trustee is giving all the aid possible but his means are limited and the call upon them is heavy. The association received substantial

aid in its work from a number of sources last week, among others from the Blish Milling Company. The latter had just received and was unloading a car of coal and gave the association the privilege of using all it hauled away while the car was being emptied.

The association in its general canvass last fall raised considerable money but its funds are not ample.

It has a receiving day each week for supplies but it is needing food, fuel and underwear for use in the work. All who can help in this way can call Mrs. C. D. Hopewell at any time and the help will be appreciated by the association.

There should be no backwardness in lending a helping hand in the splendid work the association is doing.

Resolutions of Respect.

After months of suffering, after a brave battle for life, our friend, our neighbor, our colleague, Dr. Blaine Empson, has answered the summons of Him whose demands are never questioned, and from whose edict there is no appeal. While yet filled with the hope of a sturdy young manhood, after a professional career full of promise, after a life all too brief, he has laid his burdens down. Therefore, be it

Resolved by the Jackson County Medical Society, that we extend to his family our heartfelt sympathy in their bereavement. And be it further

Resolved That we spread these resolutions on our minutes, and send a copy to the family.

BETTY BLYTHE TALKED TO TOM

And Then Wrote Up The Attorney General In The Sunday Star.

SAID MANY NICE THINGS

About The Smiling Jackson County Statesman.—Words For Home Friends.

Betty Blythe, a special writer for the Indianapolis Star, had a lengthy illustrated article in that paper Sunday headed, "Attorney General 'T. M.' is happy, he longs for good old Jackson county." Among other things regarding the Jackson county statesman, Betty had the following to say:

Now comes Thomas M. Honan—Attorney General Thomas M. Honan. Mr. Honan calls himself "T. M."

Mr. Honan has been an office-holder only one short year, but already the cares of getting himself re-elected have arrived to trouble the serene and peaceful joys of filling a perfectly good office and garnering all the dignities attached thereto. To be sure Mr. Honan will be attorney general for another whole year, but already he is a candidate for re-election. Looks as if there simply is no such thing as peace for a poor office-holder.

Not that the honorable attorney general is at all worried about matters in general and officeholding in particular. I fancy it would take quite a big, hard jolt seriously to disturb that smiling cheerfulness. Mr. Honan is the apostle of sunshine. He comes nearer to practicing the medical profession's don't-worry specific for absolute and perfect health than any man I ever met.

In fact, Mr. Attorney General is so persistently sunny and happy that I could not imagine him ever indulging in serious moments.

I could not imagine Mr. Honan settling down to a solemn and dignified attorney general; neither could I conceive of the individual holding that prominent state office being anything but solemn and dignified. So I went over to the State House to find out about it.

And I found Mr. Attorney General dignified enough, but not solemn.

I think the first thing he did was to tell a story. It was a good story. Then he told some more stories. It was necessary to remind him several times that interviews were serious business, not to be laughed away with stories. Then for once in his life Mr. Attorney General grew serious. He told me that the office is very important, and that there is a tremendous amount of work attached to it. I asked him if he considered himself a good attorney general.

He replied that he was doing his best and no man can do more.

The office is democratic in conduct as well as in name. One custom on which the attorney general insists is that the door to his private office shall never be closed. Thus visitors are enabled to confirm for themselves the clerk's statement that chief is busy by the simple expedient of looking through the door. They can see whether he is working, engaged with a

visitor—or loafing on the job.

Mr. Honan says there is no time to loaf on the job and that he leaves the door open to prove it.

On the question of politics it was difficult to get Mr. Honan very far away from the Marshall boom. He assured me earnestly and with force and vigor and many amplifications—the Governor not being present—that Governor Marshall is the 'biggest Democrat in sight today.

I learned from Mr. Honan that at heart Democrats love each other better than any other people in the world. I hated to suggest the mere possibility, and I did it as delicately as possible, but I felt it my duty to ascertain if Mr. Attorney General's heart will be shattered to smithereens if he has to go way back to Jackson county a year from this January.

Well sir, you never saw a man's face light up quicker and brighter at the thought of going back to home and friends. You would have thought return home had been mentioned to an exile.

"Sorry to go back to the country!" exclaimed he. "Well, I should say not. Say, in some ways living in Jackson county has got the city skinned to death. Why it is not nearly so lonely in the country. A man may mosey downtown in the evening and he can sit around in the grocery store or the harness shop and exchange views with all his neighbors. Everybody speaks to you on the street and they call you by your first name. For real sociability the country every time.

Mr. Honan added that he does not wish to go back until he has served two terms. He says two years is not long enough for any state official to serve if he is to do the best work. It takes half a year to learn the office thoroughly and if a change is made every two years, why the incumbents are all the time learning and there is no time left to work.

I figure it out if a man stays two terms he can at least devote the last two years to his office. He knows he is through with that office and he does not have to hustle around to get the nomination and make a campaign.

TO CONTEST WILL

William Dixon Wants Larger Share of Daughter's Estate.

William Dixon, father of Mrs. Solon Dixon Wilcox who died recently in Guthrie township in the eastern part of Lawrence county, will it is announced try to break her will. By the latter the father was left \$100 and the remainder, or practically all of it, was bequeathed to her brother and sister, Sanford and Clara Emma Dixon. The estate amounts to \$9,500. Mrs. Wilcox was divorced from Solon Wilcox who has valuable interests in the west part of this county, and her estate represented the money received by her from her husband by agreement just before the divorce was granted. When she first filed suit for divorce she demanded alimony amounting to \$20,000, it being claimed the husband was worth \$40,000.

## Heart to Heart Talks.

By EDWIN A. NYE.

### THE MYSTERY.

In one of the ranges of the Rocky  
mountains is a certain sheer cliff.  
Halfway down the precipice is a  
grassy ledge where foot of man has  
never trod.

Only the sunshine and the wind and  
the rain and the birds go there.

And—  
On that shelf of shale, inaccessible  
to man and but dimly shown though  
a powerful glass, grow violets. Year  
by year they bloom there as do the  
violets down in the valley below.

Year after year, through thousands  
of years perhaps, that shelving rock  
has held its banquet of blue. And for  
thousands of years, perhaps, May day  
will kiss the violets into bloom.

Now—  
Do you fancy the charm of those un-  
seen flowers is lacking, the coloring  
less delicate, the stems less graceful  
than the violets of the valley?

Certainly not.

And why? Of what use are the pret-  
ty blooms? No human hand can pluck  
them: no human eye can feast on them.  
Why the violets?

Why did God make them? If they  
can neither be seen nor their fra-  
grance known, nor plucked to put over  
the heart of woman nor to gladden the  
heart of a little child, what were they  
made for?

What is the mystery?  
Why is it that "full many a flower is  
born to blush unseen?"

For, mind you, there can be no  
doubt that an increasing purpose runs  
through all. The bunch of violets on  
the perilous ledge is working at its  
secret destiny just as you and I are  
working away at ours.

The violets do not know.  
We do not know.

If we only knew! If we knew the  
secret of that mass of blue on that  
shelving rock we should know the se-  
cret of our own lives and the riddle of  
the universe.

As Tennyson says:  
Little flower, if I could understand  
What you are, root and all, and all in all,  
I should know what God, and man, is.

We do not know, nor do the violets.  
"where his islands lift their fronded  
palms in air." We only know, and the  
violets know, we "cannot drift beyond  
his love and care."

### CHEESE AND CHEESE DISHES.

There are many different kinds of  
cheeses, and all palatable, according  
to one's taste.

Cheese should never be kept tightly  
covered.

When it is dry and hard, grate and  
keep covered until ready to use. It  
may be sprinkled into soups or added  
to starchy foods.

Soda added to cheese dishes makes  
them more digestible by softening the  
casein.

A soft, rich cheese is best for cook-  
ing.

Cheese is sufficiently cooked when  
it is melted; if cooked longer it be-  
comes tough and leathery.

Cheese is a very valuable food, be-

ing rich in proteid and may be used  
as a substitute for meat.

Various brands of cheese take their  
name from the places where they are  
made. Skim-milk cheeses are Edam,  
Parmesan and Gruyere. Parmesan is  
so hard that it is mostly used for  
grating, or may be bought in bottles  
already grated.

Gruyere has its large holes made by  
aeration.

The favorite milk cheeses are Ched-  
dar, Gorgonzola and Cheshire.

Cream cheeses are Camembert, Brie  
and Neufchatel.

The study of cheese is a most inter-  
esting one. Our American cheeses are  
ranking well with those of foreign  
make.

Cheese of which the Germans are  
very fond is Limberger, which is very  
rich and delicious, and when one can  
get it past the nose is greatly en-  
joyed.

Roquefort is a French cheese, origi-  
nally made of goat's milk. This  
cheese is a great favorite as an after-  
dinner ending.

# HITCHCOCK HAS A PROPOSITION

Wants Government to Take Over Telegraph Lines.

## MR. TAFT IS TAKEN UNAWARE

From All Accounts the White House Was Wholly Unprepared For the Announcement Made by the Postmaster General That He Would Recommend to Congress the Purchase by the Government of All Telegraph Lines.

Washington, Jan. 15.—Government ownership of all of the telegraph lines of the country, to be run by the post-office department, is what Postmaster General Hitchcock has announced that he will recommend to congress. Mr. Hitchcock has dug up a statute enacted by congress forty or more years ago, under which he contends the government can take over the wire service of the country and conduct it as an adjunct of the post-office department. It is estimated unofficially that this gigantic undertaking would cost the United States government somewhere between \$300,000,000 and \$500,000,000.

To say that Hitchcock's announcement was a surprise to Washington is putting it mildly. The most interesting thing about it, though, is that it apparently was a great surprise also to President Taft. There has been no intimation that the president had authorized his postmaster general to make such a recommendation. Circumstances point to the fact that the White House is considerably concerned over the statement which Mr. Hitchcock had put out.

Recently reports have been circulated from sources that cannot be ignored that the president and his postmaster general are not in as close accord, especially on politics, as they once were. On at least one occasion recently Mr. Hitchcock was accused of taking a stand against the wishes of the president. This was at the meeting of the Republican national committee, when Hitchcock was charged with supporting southern Republicans in opposition to the naming of Harry New as chairman of the committee on arrangements.

If Mr. Hitchcock's statement in regard to the government ownership of telegraphs has been issued, as seem likely, without the indorsement of the president, it may lead to a further embarrassment. The first thing members of congress wanted to know when they heard of Mr. Hitchcock's statement was whether President Taft was advocating government ownership. These men will immediately turn to the president and he will be obliged to make his views known on the plan.

## INCLINED TO DOUBT IT

Head of the Western Union Doesn't Think Much of Scheme.

Boston, Jan. 15.—Theodore N. Vail, president of the American Telephone and Telegraph company, which controls the Western Union Telegraph company, said that it was the first he had heard of such a project and was inclined to doubt that any such recommendation would be made. Mr. Vail said: "I don't think the government will do such a thing. The expense the British government has been under in maintaining the telegraph should indicate that public ownership is not very promising, and I should not think our government would find very much to enthuse over if congress will read the last report on the cost over on that side of the ocean. In England the general revenue pays just about one-half the cost of conducting the telegraph lines. In other words the expense of handling every message exceeds the amount received by about 50 per cent."

## Mr. Nally's Opinion.

New York, Jan. 15.—Edward J. Nally, general manager of the Postal Telegraph Cable company, said that he could not say offhand what the attitude of the Postal would be toward the proposed absorption of the lines by the government, but he personally did not believe that congress would favor Mr. Hitchcock's idea. "In my opinion," he added, "the country is not quite prepared for such a step."

Maurice Maeterlinck, the Belgian dramatist, confirms the report that he will devote his Nobel prize money to establishing a literary prize.

## TOM L. LEWIS

Who Renews Fight Against Former President Mitchell.

## NEW GAME WORKED ON UNWARY VICTIMS

This Man Was Selling Indiana University Stock.

Bloomington, Ind., Jan. 15.—Because a man was at Evansville selling or pretending to sell stock in a women's dormitory for Indiana university, President William Lowe Bryan found it necessary to issue a card, making it plain that the party was not authorized to represent Indiana university, as the state school is not engaged in erecting a dormitory. The matter was first brought to the attention of Dr. Bryan when he received a letter from the cashier of an Evansville bank, saying the man had given a check which was protested at Bloomington and the Evansville institution sought to collect the amount due on the check, from the university.

Later Judge Hogate received a letter from Evansville inquiring if the man was a representative of the Indiana university. The last letter said that the man had gone to Terre Haute, where he expected to continue his stock selling. It is not known here how much money he obtained at Evansville before the officials here were apprised of his actions. President Bryan declined to disclose the man's name.

## LEFT THE TRACK

Three Cars of a Fast Big Four Train Go Into the Ditch.

Kenton, O., Jan. 15.—Thirty-four persons were injured, five probably fatally, when a Big Four train was wrecked by a split rail four miles from Carey, shortly after noon Sunday. Eleven of those injured were brought on a special to the hospital here for treatment.

The train was several hours late and was making close to a mile a minute in its rush toward Cincinnati to make up lost time when the accident happened. The combination diner left the rails first, dragging two other coaches after it. The train bumped over the ties for 500 feet, and then two of the three coaches rolled and tumbled down a steep embankment to the ravine below. The overturned stove set fire to the debris, and it was not until aid arrived from nearby farms that the trainmen succeeded in extinguishing the fire and pulling the victims from the windows and doors of the shattered car.

## Lee Indictment Sustained.

Evansville, Ind., Jan. 15.—Holding that the murder of his mother, father and brother followed each other in such close sequence that they could be considered as one crime, Judge Spencer in the circuit court here refused to quash the indictment against William Lee on the ground that the indictment charged three murders as one offense. The case will be called for trial Jan. 23.

## New French Cabinet.

Paris, Jan. 15.—The new ministry as formed by M. Poincare is well received by the newspapers generally and compared with the cabinet of Gambetta thirty years ago. M. Poincare is the first premier to be a member of the Academie Française since the Duke de Broglie in 1873. The prophets give the new ministry three months or three years to live.

## Conductor Killed in Collision.

Crawfordsville, Ind., Jan. 15.—E. B. Tobias of Urbana, Ill., was killed in a freight wreck on the Big Four, three miles west of this city. Tobias was a freight conductor and was seated in his caboose when another train, running only a few minutes behind, crashed through the car.

## Mr. Murphy's Ambition.

Trenton, N. J., Jan. 15.—Ex-Governor Franklin Murphy of this state makes announcement through the columns of a newspaper of his candidacy for the Republican nomination for vice president of the United States on the Taft ticket.

## HANDICAPPED

This is the Case With Many Seymour People.

Too many Seymour citizens are handicapped with bad backs. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills are for sick kidneys—thousands testify to their merit. Can you doubt Seymour evidence?

Mrs. William Abbott, 112 E. Second St., Seymour, Ind., says: "I am a firm believer in the merits of Doan's Kidney Pills and I do not know what I would have done were it not for this remedy. My back was very lame and sore and for days at a time, I could hardly get about. The kidney secretions were also unnatural and caused me no end of annoyance. Having heard and read so much about Doan's Kidney Pills, I finally decided to give them a trial and procured a supply. The results both surprised and delighted me and after I had taken the contents of three boxes of this remedy, the contents of three boxes of this remedy was removed."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## Economies.

It has been found that the things that expand on solidifying, as water, freeze at a lower temperature when the pressure is increased, while the others freeze at a higher. When a substance that expands freezes under higher pressure than usual it has to exert more force to shove the pressure away, and consequently has to use up more of its heat energy, thus losing more heat and consequently becoming colder.

## The Choice of a Husband

is too important a matter for a woman to be handicapped by weakness, bad blood or foul breath. Avoid these kill-hopes by taking Dr. King's Life Pills. New strength, fine complexion, pure breath, cheerful spirits—things that win men-fellow their use. Easy, safe, sure. 25c. The Andrews Drug Co.

## Paper Plates for Animal Pets.

Using paper plates for animal pets will be found to be a good plan. Some people do not take the care to wash plates kept for dogs and cats, although they should be kept scrupulously clean and be used for no other purpose. Paper plates, which may be bought by the hundred for but little money, may be burned after they have been used. It is also a good idea to have a piece of zinc put on the back porch, where the pets are likely to be fed, and place the dishes on this for them. The zinc is easily cleaned.

## Insect Bite Costs Leg.

To avert such calamities from stings and bites of insects use Bucklen's Arnica Salve promptly to kill the poison and prevent inflammation, swelling and pain. Heals burns, boils, ulcers, piles, eczema, cuts, bruises. Only 25 cents at The Andrews Drug Co.

# THE CONCILIATION BOARD IN DANGER

Anthracite Mine Leaders Want to Abolish It.

## AGAINST WISHES OF THE MEN

The Rank and File of the Mine Workers Have Found This Board a Great Help in Time of Need, but the Leaders of the Union Don't Like It Because It Does Not Recognize the Union as Such.

Indianapolis, Jan. 15.—Anthracite officers and delegates of the mine workers arrived here today to attend the convention which opens tomorrow, eager to take up the fight which John Mitchell, ex-president of the union, is expected to make at the meeting of the United Mine Workers of America. A year ago at this convention a resolution was passed compelling John Mitchell either to resign from the National Civic Federation or from the mine workers. Mitchell left the federation, giving up the salary of \$8,000 a year which he was paid. Since then his friends have claimed that the convention was packed by the Socialist element of the union, which Mitchell has always opposed, in an effort to humiliate him.

Mitchell is expected to make a vigorous fight to have the resolution rescinded and the anthracite men will, with few exceptions, support him. The opposition will be led by Thomas Lewis, who last year was defeated for president by John P. White.

The convention will also consider the demands of the anthracite mine workers, and there is a belief here that the national executive board will modify them in the hope that thereby the operators may be induced to grant some concessions. The demands will not be presented to the operators until after the convention adjourns.

One of the chief demands of the anthracite miners is that the board of conciliation be abolished. Every operator who has seen believes in the board, which has so far settled satisfactorily more than 200 grievances. Miners say they personally should like to see the board continued. The miners thus approached gave as their reasons the same arguments advanced by the operators, the chief of which is that the board is made up of three operators and three mine workers and that if there is a deadlock on a decision the question is put up to C. P. Neill, chief of the bureau of labor at Washington, who then as umpire makes a decision that is final. The miners' wives and daughter agree with you that the board should go on settling disputes. Settling disputes in the board's way means—has meant for about nine years—the absence of long strikes, stagnation in other businesses, hunger and some times murder, loss of revenue to the mining companies, loss of property through violence, loss of wages to the miner, and at last the word over the grocery counter that the miner's family may have no more credit.

"Then why," ask folks not familiar with the situation, "if the operators want to continue the board and miners' wives and families almost unanimously ask that it go on, why do some of the most observant persons in the three anthracite labor districts expect that the board will not be continued and that a serious strike may be called within a few months?" One must remember that the miner has next to nothing—has nothing—to say whether the board shall be continued or not. The district presidents and other union leaders have almost all the say. And the leaders do not love the board of conciliation because with the board settling grievances, even a board made up of as many mine workers as operators, the settling of disputes is taken out of the hands of "the union."

"The board does not recognize the union as a union," is the sum of the complaints of the handful of leaders who tell about 175,000 mine workers what to do. The labor leaders, in other words, want to settle things by meeting directly the operators in their offices, the mine owners conferring with them as union leaders, not as members of a joint board. And if the board of conciliation did not exist the leaders could make their demands, and if these demands were turned down the leaders could harangue at a nearby hall that night or the next, call a big strike as they used to do, and tie up the region. For a majority of the 175,000 faithful usually have quit and fought and starved when the leaders told them to quit, a state of affairs that doesn't exist under the board.

## Took Foreclosure Suit to Heart.

Sullivan, Ind., Jan. 15.—Francis Smith, aged forty-seven, a well-known farmer of Jefferson township, committed suicide at his home by swallowing poison. Brooding over financial matters is the supposed cause of his act. He was sued a few days ago on foreclosure of mortgage.

## Two Boys Killed by Train.

Hobart, Ind., Jan. 15.—While awaiting the return of the high school basketball team at the Pennsylvania station, Walter Moll, aged thirteen, and Freddie Lee, ten, were killed by a freight train which approached from an opposite direction just as the passenger neared into view.

## JOHN MITCHELL

Former Head of Miners Will Renew Old Fight.

## TARIFF AGAIN THE PARAMOUNT ISSUE

The President Prepared for Battle With Congress.

Washington, Jan. 15.—President Taft is now reconciled to the fact that there is no chance of obtaining the enactment of a federal incorporation bill at this session of congress. The president had given this legislation a place of equal prominence on his program with the tariff, but he has been informed by his supporters in congress that it will be impossible to do anything along the line of anti-trust legislation this session. The president will continue to urge the passage of a federal incorporation measure, but the efforts of his administration from now on will be centered chiefly upon the tariff question. The Democrats have insisted all along on making the tariff the principal issue in the coming campaign, and when President Taft devoted his first message of the session to the Sherman anti-trust law exclusively, they immediately jumped at the conclusion that he was trying to shunt the tariff to one side and obscure it with the anti-trust issue.

President Taft has been advised now to meet the Democrats squarely on the tariff, and he is prepared to do this. The issue that the president will carry to the people of the country, however, will not involve any particular tariff measure, past or present. It will be based on the general principle of a revision of the tariff founded on expert data, instead of the slipshod, snap-draft method of the past. The Democrats have already given evidence of their intention to minimize in every way possible the findings of the tariff board, on which the wool schedule will be based, and the president is ready to meet them on this issue.

## MURDER WILL OUT

Three Prominent Ohio Farmers Held to Answer For Horrid Crime.

Circleville, O., Jan. 15.—Three of the best known farmers in Ohio are held in the Pickaway county jail here on a charge of double murder, trapped after three years by a woman's confession. The arrests clear up the brutal slaying of Miss Fannie Hagengans, a wealthy spinster, Feb. 14, 1909. The confession also reveals that George Kohler, by whom the murder of the woman was supposed to have been committed, was instead one of the victims. "Soft spots" and the outbuildings of the farm are now being searched for Kohler's body and also that of any other victims.

Henry Hagengans, a brother of the slain woman and one of the trio under arrest, made a complete confession of the double crime to Sheriff Williams of Pickaway county shortly after his capture on his farm near Westerville. He said that he hired Edward and Davis McKinley, the former of Pleasant View and the latter of Harrisburg, to murder his sister and Kohler, paying them \$1,000, so that he could get his sister's estate, valued at between \$75,000 and \$100,000.

It was Edward McKinley's own daughter who furnished the information that led to the arrest of her father, uncle and their alleged employer, Miss McKinley left home shortly after the murder of Miss Hagengans, going to LaCross, Ind. She came to Delaware yesterday and told the story of the double murder by the trio, declaring that her conscience troubled her so that she could not sleep and that she preferred seeing her father in jail to suffering longer such mental anguish.

## Poison Bottle at His Side.

## KIDNEY TROUBLE OVERCOME BY THE GREAT TREATMENT.

I have been a sufferer for years with kidney and bladder trouble and took almost everything a drug store contained without obtaining any benefit.

I suffered so that I became utterly discouraged, as I could not sleep, was always dizzy and had a headache all the time. I saw one of your advertisements and as a last resort, decided to try your Swamp-Root. I am now taking the third bottle and feel like a new woman, sleep well and have no pains whatever.

I strongly advise all sufferers to take the only real cure for kidney and bladder trouble. Dr. Kilmer's Swamp-Root was a God-send to me.

You may publish this letter if you wish so that it may be the means of bringing some poor sufferers back to health.

## Living for Others.

There is light and sanity, safety and beauty in thinking, planning, working, living for others. It leads not to sin but away. It is a guide to peace, health and safety of the mind and the soul alike. But self-coddling, self-exaltation, self-interest run mad—that distortion of human nature is a potent lure to destruction. It is of the very essence of crime.—Exchange.

## Mail Carriers Will Fly.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carrier flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. F. Davis, Stickney Corner, Me., "after doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection its unequalled. Price 50c and \$1.00. Trial bottle free at The Andrews Drug Co.

## Then She Pondered.

"If you were fair," his wife said, "you would acknowledge that I have done much to make you what you are." "Oh, I acknowledge," he replied, "that you deserve nearly all the credit for making me what I am. By the way, do you happen to realize that what I am is head over heels in debt?"—Judge.

## What Makes A Woman?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. Its a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters gives her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." Only 50c. Guaranteed by The Andrews Drug Co.

## Love Souls.

Deep hearts, sage minds, take life as God has made it: it is a long trial, an incomprehensible preparation for an unknown destiny. This destiny, the true one, begins for man with the first step inside the tomb. In the meanwhile, love and suffer, hope and contemplate. Wee, alas! to him who shall have loved only bodies, form, appearances! Death will deprive him of all. Try to love souls; you will find them again.—Victor Hugo.

### THINK OF IT.

Stop and think a moment about that cough that bothers you so much. You must have been run-down when you got it for if you had been perfectly strong your system would have thrown it off in two or three days.

Take our advice about this—what you really need is to build up your strength and enrich your blood; then the cough will disappear. We know it.

Carl Schultz of Coney Island, N. Y. says, "It only took two bottles of your delicious cod liver and iron preparation, Vinol, to put me on my feet again when I was all run down with a severe cough and cold which had lasted two months. I am recommending it to all my friends."

Vinol is the greatest strength creator and body builder we have ever seen, and besides its value in healing up weak sore lungs, it gives new strength and vitality to all weak, pale, run-down people. We guarantee Vinol to do this and give back your money if you are not satisfied. The Andrews Drug Co., Seymour, Ind.

MRS. RICHARD MANSFIELD: "I consider Mrs. Mason's Old English Shampoo quite the best for the hair anyone can use of the best quality and exactly what it is guaranteed." 25c. Try it just once. The Andrews Drug Co. Seymour, Ind.

Preparations for Abdication Are  
Now Under Way.

### GUARANTEES OF SECURITY

When the Republicans Have Granted These Together With Arrangements For Continued Pensions of Manchu Princes, an Abdication Edict Will Be Issued and the Dowager Will Turn Government Over to Yuan Shih Kai.

Peking, Jan. 15.—Almost all the Manchu princes favor the abdication of the throne, and it is now only a question of providing security for their persons and property and providing them with pensions. When these matters have been arranged, an abdication edict will be issued in the name of the dowager empress and Premier Yuan Shih Kai will be left to continue the government with the machinery now in existence.

He will be instructed to co-operate with the Republican provisional government in forming a provisional coalition which will be able to restore order, obtain recognition from foreign governments and carry on the administration of affairs until a national convention has been summoned and a permanent government established.

There are several reports which seem to indicate an immediate advance of the rebels on Peking. On the other hand it is said that the Republican leaders at Shanghai have asked for another armistice for a fortnight and that it has been granted.

The lawlessness in the province of Shensi, where bandits seem to be running things their own way, is so terrible that many of the wells are choked with bodies of Manchu women who committed suicide to escape being assaulted. "Human life is not worth a chicken," writes one observer. "The Manchurian city—the northeastern quarter of the actual city—is a grave. Shot down, sabered, committing suicide, fleeing to be butchered elsewhere—with the exception of the women survivors, after weeks of slaughter, a population of 20,000 to 30,000 has disappeared."

### PREACHER IN TROUBLE

Coroner at Pittsburg Says the Police Are Looking For Him.

Pittsburg, Jan. 15.—In explaining the inquest he is holding today relative to the death of Miss Elsie P. Coe, Coroner Jamison announced that the police are seeking Rev. W. B. McFarland, D. D., Ph. D., M. D., whom the woman named in her deposition as responsible for two bungling operations of a criminal nature which resulted in her death. The coroner also revealed that by request of District Attorney Blakely, the police of Chicago have under surveillance Roland McConnell, formerly connected with a local bank, but now an official of the Westinghouse Electric and Manufacturing company at Chicago. The girl named him as having been responsible for her condition prior to the operations, but in no way connected with the latter.

The Rev. Dr. McFarland is sixty years old, and is said to have a wife living in Cedarville, Tenn., where he now is at the head of the United Presbyterian mission schools. A close friend says he was graduated from both a theological seminary and a school of medicine. After coming to Pittsburg, Rev. McFarland secured a position in the public schools, and in June, 1909, was at the head of the academic department of the high school in which Miss Coe worked.

### TEN THOUSAND MEN

Parade Through Streets of San Francisco Armed With Bibles.

San Francisco, Jan. 15.—Headed by an escort of mounted police and a band of thirty pieces, 10,000 men with Bibles in their hands marched through the streets of the city Sunday afternoon, while thousands of people stood on the sidewalks and watched the impressive sight. It was the most remarkable demonstration ever seen in this city. At the head of the line marched Gypsy Smith, the famous London evangelist, and H. J. McCoy, the veteran general secretary of the Y. M. C. A. in this city. The parade was the result of meetings now being held here by Evangelist Smith, and it was a success far beyond the expectation of the organizers.

### Didn't Know It Was Loaded.

Laporte, Ind., Jan. 15.—An accidental shooting at the home of Mr. and Mrs. James Henry may result in the death of Mrs. Anna Lonzo, their daughter. James Gilroy, nephew of Mrs. Lonzo, was cleaning a rifle when it was accidentally discharged, the bullet striking Mrs. Lonzo between the shoulders and passing through her body. Gilroy did not know the gun was loaded. Mrs. Lonzo is not expected to live.

### Costly Blaze in West Virginia.

Huntington, W. Va., Jan. 15.—Fire which started in Minor's department store at Logan swept the whole business block and spread to the county courthouse, which was destroyed. The loss is estimated at \$250,000.

## S.S.S. THE REMEDY FOR SORES AND ULCERS

The combination of healthful vegetable ingredients of which S. S. S. is composed, makes it an especially desirable and effective remedy in the treatment of sores and ulcers of every kind. Since an impure condition of the blood is responsible for the trouble, a medicine that can purify the blood is the only hope of a successful cure; and it should be a medicine that not only cleanses the circulation, but one that at the same time restores the blood to its normal, rich, nutritive condition. S. S. S. is just such a remedy. It is made entirely of healing, cleansing vegetable properties, extracted from the roots, herbs and barks of the forest and fields. It has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity in the blood. When S. S. S. has purified the circulation, and strengthened and enriched it, sores and ulcers heal easily and surely, because they are no longer fed and kept open by a continuing discharge into them of irritating disease-laden matter from the blood. S. S. S. brings about a healthy condition of the flesh by supplying it with nourishing blood and makes a permanent and lasting cure. Book on S. S. S. and Ulcers and any medical advice mailed free to all who write.
